gain a greater understanding of cardiovascular medicine and sharpen your board preparation skills with the only review based on the content of *Hurst's the heart*. *Cardiology board review and self assessment* is an all inclusive study guide and learning tool written to complement the fourteenth edition of *Hurst's the heart*, the field's cornerstone text and the resource considered by many to be the pinnacle of cardiovascular knowledge. *Cardiology board review and self assessment* contains more than 1 100 carefully selected questions and answers presented in multiple choice format. Each of the 112 chapters of *Hurst's the heart* is represented in this unique review with ten multiple choice questions. Detailed answers are provided for each question including not only an explanation of why the correct answer is correct but also why the incorrect answers are incorrect. Here's why this is the ultimate board review and cardiology learning tool: questions and answers correspond to appropriate sections of *Hurst's the heart* and include valuable tables, figures, images and references. The more than 1 100 questions span the depth and breadth of the entire field of cardiovascular medicine. High yield material is specifically selected for board relevance. Includes content based on ACC/AHA and ESC guidelines. *Cardiology board review and self assessment: a companion guide to Hurst's the heart* is essential reading for anyone preparing to take the subspecialty examination in cardiovascular disease given by the board of internal medicine as well as practicing cardiologists preparing for recertification. It is also of value to medical students, residents, fellows, practicing physicians and other healthcare professionals who wish to expand their knowledge of cardiovascular medicine.

The world renowned experts at JAMA explain statistical analysis and the methods used in medical research written in the language and style appropriate for clinicians and researchers. This new JAMA guide to statistics and methods provides explanations and expert discussion of the statistical analytic approaches and methods used in the medical research reported in articles appearing in JAMA and the JAMA Network Journals. This addition to the JAMA Evidence series is particularly timely and necessary because today's physicians and other health care professionals must pursue lifelong learning to keep up with the ever expanding universe of new medical science and evidence based clinical information. Readers and users of research articles must have a firm grasp of the myriad new statistical analytic and methodologic approaches used in contemporary medical studies to provide concrete examples. The explanations in the book link to research articles that incorporate the specific statistical test or methodological approach being discussed.
